Flowergarden

Artist: Meta Jaarsma
Product Code: MEJL-flowergarden
Availability: 1
Dimensions: 115.00mm x 765.00mm x 1,010.00mm

Price: €3.250,00

Description

LIGHT ART by MetaKleur is the name of the unique art objects by Meta Jaarsma. The art objects change color by colored light shining through transparent color designs, or by colored light on sculptures.

LIGHT ART combined with transparent color designs

- a unique color design (1 edition) of layers and shapes of different color and transparency, made of transparent material, and placed between glass
- framed in a deep (9cm) frame of scaffolding wood
- with two separately controllable LED light strips in the frame
- that shine through the transparent color design.

The LED light strips emit colored light separately from each other. It is possible to make the LED lighting shine in all possible colors and also to have the colors change in color scenarios. By choosing different color scenarios, this results in a beautiful dynamic play of colors. In a beautiful layering, because the light shines through the different transparent and non-transparent colored surfaces of glass. Sometimes the back of the frame is also painted by hand, creating an extra layer.
The color of the frame can be adjusted in consultation.

Specifications

Light object with colour effects
Unique. Sizes: 101 x 76,5 x 11,5 cm.
