Availability: 1

Dimensions: 20.00cm x 20.00cm x 180.00cm

Price: €14.285,00

Description

“Touch-graph” is the representation of a computer program that shows mutual connections between people. The different color lines symbolize the different contacts between people. All of these connections apply to every aspect of our views and ideas, be they police, religious, or any other, and can help us determine and reflect on our own position.

Specifications

Unique object made of braided wire made of viscose, steel, rubber and perspex. Will be delivered including a pedestal made of MDF and a acrylic transparant hood.
Sizes object including pedestal and hood: 180 x 20 x 20 cm
