## Description

This ceramic sculpture carries the spiritual portraits and magical ornaments as symbols. The image of Ship of Souls evokes a powerful and poetic image of an imaginary ship laden with the essence of human beings and their collective spirit. This symbolizes the idea of traveling together towards a more humane world, where compassion, empathy and tolerance are central. This ship, driven by the power of love and empathy, sails through the waves of injustice, division and indifference. On board are the souls of those who believe in a better future, who strive for peace, equality and respect for all living beings.
