### Description

Bronze sculpture, incl socle  
Sizes sculpture: 58 x 25 x 23cm  
Sizes socle: 15 x 15 x 3 cm

Khéa is like all her work, inspired by Dominique's main theme; the woman, which is the inexhaustible source of many symbols. Dominique works with this symbolism, without model or picture, and makes use of pure simplicity and exaggeration; which are apparent contradictions. She seeks the boundaries of aesthetics without compromising harmony and elegance, which makes the sculpture more powerful.
